MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Initial Flight of the AF-12
(Air Force Visitors [])

REFERENCE : [] 3052-63 dtd 8 Aug 63, Same Subject

1. This memorandum is for information only.

2. The above reference advised of the first flight of an AF-12 [] on 14 August 1963. It also listed a number of individuals who planned to witness this flight and set forth the means by which they would travel to and from [].

3. As of 0900 on 12 August 1963, the list of those expecting to attend the flight had been cut considerably. The only ones now fairly certain to attend are Gen. John K. Gerhart, Commander of Morad; Lt/Gen. Herbert B. Thatcher, Commander of ADC; M/Gen. Robert G. Ruegg, Commander of ASD; and Dr. William A. Niskanen, OSD, Office of the Comptroller. There is also a slim possibility that Dr. Eugene G. Fubini, OSD, Deputy Director for Research and Information Systems; and the Honorable Alexander H. Flax, Assistant Secretary of the Air Force for Research and Development, may attend.

4. Colonel Horace A. Templeton of ASD will coordinate the movements of the above individuals. He will be assisted by Security Staff/OSA.
